

If you count cash, then an Omega 230 can help you!

The Omega 230 is our top of the range count-by-weight 'cash counting' machine designed for businesses that demand a higher level of flexibility, particularly in the processing of non-cash items such as coupons and pro-active management of cash on the shop floor. This allows businesses to actively monitor till discrepancies and speed up random till checks throughout the day. Multiple lifts throughout the day can be reconciled with 'end of day' till counts. It is ideal for customers who need the flexibility to quickly open or close tills according to customer demand.

Our weight-based 'cash counting' products help your business work more efficiently and are proven to prevent cash loss or shrinkage. Counting by weight is considerably faster and easier than counting by hand and highly accurate. Additionally, our products can count bills, coins, coupons, and instantly reconcile takings allowing you to conduct on-the-spot audit checks.

- *Counts bills, coins & coupons*
- *Saves time*
- *Easy to use*
- *Portable*
